

## INSTRUCTIONS FOR USE

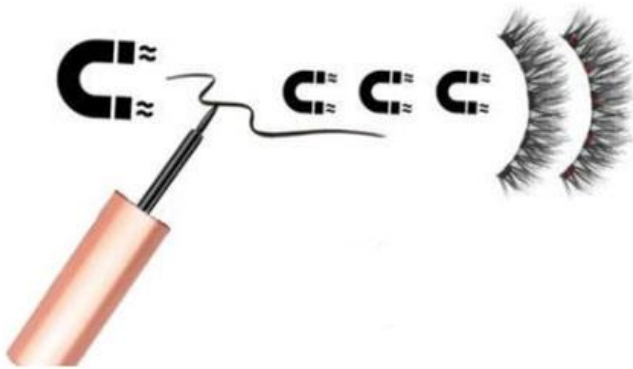

### MAGNETIC LASHES

#### THE PACKAGE INCLUDES:

- 1 x magnetic eyeliner
- 5 x magnetic lashes
- 1 x tweezers for installation & removal

#### SPECIFICATIONS:

- Material: microfiber
- Production: handmade
- Installation: easy
- Eyelash length: 10—14mm
- Eyelash arch: 33mm

## INSTRUCTION MANUAL:

#### Preparation:

- Shake the bottle of the Magnetic Eyeliner before use.
- Always seal the bottle after use.

#### How to Apply the Eyeliner:

- Wipe off excess liner back into the bottle as you only need the brush to be damp, not dripping with product. This will help you achieve a nice straight line!
- Carefully draw a line of eyeliner along your eye shape, making sure to extend the liner to the end. Ensure the line is close to the roots of your real eyelashes. If you have no eyelashes, just follow your eyelid line.

#### Step 2 - Apply your magnetic lashes

- Before you apply the silk magnetic eyelashes, bend them to your eye shape & cut to shape if required.
- Apply the magnetic eyeliner and leave for 2 minutes to dry. Take the end tip of your magnetic eyelashes with tweezers or fingers, place it above your real eyelashes, connect the magnets together slowly with the eyeliner line.
- Gently adjust until the magnetic eyelashes are perfectly placed.

### 3 Simple Steps

#### TIPS AND TRICKS FOR APPLYING YOUR LASHES:

- Apply the eyeliner as close to your natural lashes as possible.
- To get the best placement of your lashes, try to attach the lash to the outer corner of your eye first and only then apply it to the inner corner.
- Try using the tweezers to place the lashes onto the eyeliner, sometimes fingers get in the way.
- If you attach the lashes and wish to reposition them or switch styles, remove them gently. If necessary, reapply any eyeliner that has come off with the magnet. Then clean off the magnet gently with a dry or damp cotton bud. Reapply the liner where it's been removed and try again!
- If the inner corners of the lashes bother you or lift up, you can trim the inner corner of the lash just before the magnet.

- After removing your lashes for the day, wipe the eyeliner with your usual makeup remover. We recommend using an oil-based makeup remover.

#### Important:

- Eyelashes are a hygienic product, so after removing the protective foil, they may not be replaced with another product and no refund may be required. The product may only be returned if there is still protective foil on it.
- The product is verified and certified. The content of the individual elements is in accordance with the relevant legislation. In case of hypersensitivity or allergy to any of the ingredients, consult a doctor before use. Magnetic eyeliner - ingredients: purified water, acrylate copolymer, propylene glycol, nano carbon black dye (CL 77266), iron powder, ethylhexylglycerol, phenoxyethanol.
